The Approach

How did you select this vendor?

We sent RFPs to various vendors and Ignite Visibility came in with an exceptional offering and presentation.

Describe the scope of their work in detail.

Ignite Visibility managed our digital ads offering and optimized them to deliver a high return.

What was the team composition?

I worked closely with their account manager and various technical resources.

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

We saw three times the return on ad spend that we had with our previous vendor. A big piece missing from our ads prior to Ignite Visibility was the visibility and understanding of the potential our ad offering was bringing. They changed this by reporting bi-weekly, then weekly on ad performance. They've cleaned up our accounts, worked through Google Ads, and optimized Google Tag Manager.

How effective was the workflow between your team and theirs?

Their process of weekly updates and feedback has been flawless. Our point of contact has been incredibly detailed in his work and has ensured tremendous results.

What did you find most impressive about this company?

Our account manager dedicated his time and effort to our projects and made us feel like his top priority.

Are there any areas for improvement?

No, except to continue to increase transparency.
